No. G. 2651—*Ft.* 81-31-21, *dated* 29*th September* 1931.

Errata to Notification No. G. 5766—Ft. 300-26-5, dated 23rd November 1927, pertaining to the constitution of Karakutchi Block into a State Forest published at page 615, Part II of the *Mysore Gazette*, dated 1st December 1927:—

For "2112 acres, 30 guntas or 3 square miles 272 acres and 30 guntas."	*Read* "1919 acres, 9 guntas or 2·99 square miles."
In the boundary description ...	North—*Substitute* 37 *for* 42 in line 4.

Put in a comma after 66 in line 8 and insert the following between "66" and "and meets" "east sides of Survey Nos. 66 and 65, south sides of Survey Nos. 64 and 55, east side of Survey No. 55 and South side of Survey No. 54".

In the same line, substitute "North-east" for "South-east" and delete the words "and then turns north to the south-east corner of Survey No. 54".

In the description of the southern boundary—lines, 4, 5 and 6 delete the portion "and meets the north-east corner.....Survey Nos. 57 and 56 and" and insert "till it" in its place.

By Order,
R. RANGA RAO
Chief Secretary to Government.

DEVELOPMENT SECRETARIAT.

No. D. 1697—*Geol.* 94-30-8, *dated* 23*rd September* 1931.

In exercise of the powers conferred by Section 8 (2) (a) and (b) of the Mysore Petroleum Regulation, I of 1923, the Government of His Highness the Maharaja of Mysore are pleased to direct that accompanying revised special license Form "Q" and the conditions attached thereto be adopted in lieu of the existing Form "Q" with a view to provide for the storage of dangerous petroleum in underground tanks adjoining kerbside pumps throughout the State. The revised Form "Q" will be included in the Petroleum Rules.

By Order,
B. T. KESAVA IYENGAR,
Secretary to Government,
Development Department.

FORM Q.

Special License to possess dangerous petroleum in one receptacle or more than one receptacle forming one unit in connection with a Kerbside Outfit.

(Rule 6, Chapter IV of Part II.)

Vide *Government Notification No.* 10434—*Geol.* 95-28-11, *dated* 11*th April* 1929.

No. Fee Rs.....

License is hereby granted to Messrs.....
for the storage in the licensed premises described below of.....
gallons of dangerous petroleum in.....subject to the rules for the storage of petroleum published in Notification No. I. C. 5415—Geol. 103-22-14, dated the 13th March 1924, as subsequently amended and to the further conditions attached hereto.

The 193 Secretary to Government
or
Officer appointed by Government in this behalf.

(Description of the licensed premises above referred to.)

The licensed premises are situated at No.....
.....
and consist of.....of a capacity.....
gallons sunk underground or completely covered with earth.

CONDITIONS OF LICENSE.

1. Except when absolutely necessary for the purposes of condition 8, or for testing the accuracy of a pump's discharge by means of a standard capacity measure or when the tank and pump are erected completely inside a dangerous Petroleum Installation, petroleum shall on no account be filled from the tank or pump or from a barrel of petroleum supplied to be filled into the tank, into any receptacle other than that clamped or fitted to a Motor Vehicle.

2. The Petroleum shall be stored in one gas tight metal tank or tanks of a capacity of.....gallons sunk completely underground or completely covered with earth above ground when on private, leased or rented land away from public traffic, in the position shown on the plan submitted, and each placed in a masonry or concrete tank, the metal tank being packed round with sand, earth or clay so that no air space is left between metal tank and masonry tank and the metal tank is not visible. Such masonry or concrete tank shall not be obligatory if the metal tank is a welded one tested up to a pressure of 3 lbs. per square inch and is buried or completely covered and is on private, leased or rented land away from public traffic.

3. A pump or pumps shall be placed in the position on plan submitted, the pipe connection between the tank and the pump or pumps shall be placed underground and all joints, valves and cocks shall be gas tight.

4. For the purpose of charging the tanks of locomotives the petroleum shall be:—

(*a*) pumped through strong metal piping by means of approved pumps into above ground measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions and run thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of locomotives, or

(*b*) pumped through strong metal piping by means of approved pumps into an above-ground service tank or approved capacity, fixed in an approved position, and run thence through strong metal piping into measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions and thence through sound hose, fitted with secure self-closing cock and nozzle into the tanks of locomotives, or

(*c*) pumped by means of approved measuring pumps, fixed in approved positions, through sound hose, fitted with secure tap and nozzle, into the tanks of locamotive.

5. All tanks, pumps, pipes and fittings shall be strongly constructed of the best materials.

6. The petroleum shall enter the tank 'under seal' and all tanks shall be fitted with a vent pipe leading into the open air, the open end being covered with brass gauze, 32 mesh, and fitted with a hood or the open end shall be fitted with an inlet valve and an exhaust valve.

7. If the licensing officer call upon the holder of a license by a notice in writing to execute any repairs to the storage premises, which may, in the opinion of such officer be necessary for the safety of the said premises, the holder or the license shall execute the repairs within such period not being less than one month from the date of receipt of the notice as may be fixed by the notice.

8. The tank before being repaired, shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same. When a tank in position is open for cleaning or repairs, no lamps of any description either ordinary, electric, electric torches or electric cables or electric fans shall be brought near the manhole of the tank until the tank has been certified in writing to be "gas free" by a qualified chemist or engineer. (The inside of the tank may be lighted by the use of mirrors.)

9. The license holder is prohibited from dalivering any quantity or dangerous petroleum exceeding 3 gallons to any a unauthorised person.

10. All due precautions shall be taken for the prevention of unauthorised persons having access to any petroleum kept and to the vessels containing or having actually contained the same.

11. Every person managing or employed on or in connection with the storage premises shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and to the best of his ability shall prevent any other person from doing such act. The engine of any vehicle receiving petroleum from the pump shall be stopped and its lights extinguished. A notice being a copy of condition 11 shall be exhibited prominently on every pump.

12. The storage premises shall be liable to inspection by any officer that may be authorised by the Director of Industries and Commerce in this behalf or any Police Officer of the rank of an Inspector.

13. This license shall be held to cover the use of a portable kerbside pump outfit for a period of not more than one month in the place of the licensed permanent outfit in the event of the latter being out of order provided notice in writing is given to the Director of Industries and Commerce before the portable pump is taken into use and the conditions of this license which apply to a portable pump shall be observed. No petroleum shall be allowed above ground (except that actually in the pump) in all casess where the underground tanks can be used in conjunction with the portable pump by making a temporary connection from the portable pump to the under ground tank.

14. In cases where portable pumps are used not more than two barrels of petroleum in reserve shall be kept within 20 feet of the pump or on public property nearby.

15. The licensee shall provide for each pump, whether kerbside or portable, a minimum of two tins or drums of sand which shall be kept ready for extinguishing fires.

No. D. 1762—*I. & C.*, 322-30-4, *dated* 28—29*th September* 1931.

In exercise of the powers vested in them by clause (b) sub-section (3) of section 2 of the Mysore Factories Regulation III of 1914 as amended by Regulation, VI of 1925, the Government of His Highness the Maharaja of Mysore are pleased to declare each of the following premises to be a factory under the said Regulation :—

1. Mr. H. V. Ramachandra Rao's Rice Mill, Chikmagalur.
2. Sri Rama Rice Mill, Challakere.
3. Sri Krishna Rice Mill, Challakere.

By Order,
B. T. KESAVIENGAR,
Secretary to Government,
Development Department.
